How to sign up

Step 1. Press Not a member? Sign up now.
Step 2. Fill out required information.
Step 3. Press Register.

Homescreen

Step 1. The application will display the home screen after successfully logging in
**Step 2.** At the home screen, the user can do three different things:
  a) Discover locations
     ● Clicking on "Discover Locations" will take the user to the "Location Page" (page 5 in user guide)
  b) Discover guides
     ● Clicking on "Discover Guides" will take the user to the "Guides Page" (pages 6-7 in user guide)
  c) Open chats
     ● Clicking on "Open Chats" will take the user to the "Chat Page" (page 8 in user guide)
Step 3. Clicking on the three bars at the top left will open the user's settings

Discover Locations

Step 1. From the home screen select discover locations.
**Step 2.** From the locations page select a location

Connecting to a guide

Finding a guide for a specific location.

Step 1. From the home screen select discover locations.
Step 2. From the locations page select a guide.
**Step 3.** Initiate the chat with a guide by pressing Send Chat Request

# Finding a guide for current location.

Step 1. From the home screen select discover guides.
Step 2. From the guides page select a guide.
**Step 3.** Initiate the chat with a guide by pressing Send Chat Request

Starting a private conversation with another user

Step 1. Find a guide for a location that the user is interested in.
**Step 2.** On the guide page, tap on the **Send Chat Request** button.
Step 3. If the guide accepts the chat request, a private chatroom between the two users is created.

Step 4. From here, the users can send private messages to each other.
Step 5. The top right menu allows users to report or block the other user as well as close the conversation.

Settings

Step 1. In the settings page, the "preferences" tab will be displayed first. From here, the user can check their preferences to help the guides assist the user better

Step 2. The user can switch over to the "locations" tab to view all previous locations the user has visited. The user can also swipe left on a location to delete it

Step 3. The user can switch over to the "settings" tab to view all the settings within the application
